**ORGANIC AND HEALTHY SERVICE EXPANDS TO HERRIMAN**  
Organic Retailer Azure Standard Establishes Delivery Point in Herriman

SEPTEMBER 7, 2007: Residents in Herriman City who desire the health benefits of an organic, natural lifestyle will now benefit from the vast selection of a giant in the organic industry, Azure Standard.

Azure Standard is a company committed to growing and distributing chemical-free products. Established in 1987, Azure Standard boasts an impressive selection of over 4,600 different products, including grocery, health and beauty, kitchen supplies and much more. Orders can easily be placed online, by phone or by fax.

Headquartered in Oregon, truck routes have been set up to distribute orders monthly. Most recently, Herriman residents have had to pick up their deliveries in West Jordan. However, because of the growing demand for organic and natural products by Herriman residents, a Herriman drop site has now been established.

An overview of the remarkable inventory may be obtained by visiting the company's Web site, [www.azurestandard.com](http://www.azurestandard.com). Establishing a free user account results in a customer price reduction of 15% - 20% per item. Customers may also request a free product catalog from the Web site. To ensure the correct delivery of customer orders, Azure's regional service representatives collect and track local orders. First-time customers should email [azure-siu@cableone.net](mailto:azure-siu@cableone.net) or call Heather Ross, the regional support representative, at 208-429-1989 for additional ordering instructions. Healthy living just got a little easier!
