

11800 SOUTH SEWER UPGRADE PROJECT

July 2024 Construction Update

2800 West – 2960 West

- Sewer main installation has been completed between 2800 West and 2960 West.

2700 West – 3200 West

- New water main installation is underway between 2700 West and 3200 West. Crews are working westward from 2700 West.
- Work will be on the south shoulder, pushing traffic to the north side of the road. One lane each direction (east/west) will be maintained on 118th South and residential access will be maintained.
- Water line work is expected to continue for approximately six weeks.
- When mainline installation is complete, crews will tie in the new line, which may require temporary service interruptions for some residents. 48-hour advance notice will be provided.

3200 West – 3600 West

- New culinary water main installation is complete between 3200 West and 3600 West.
- When crews begin tying in the new culinary water main, some residents and businesses may experience temporary water service interruptions. 48-hour advance notice will be provided ahead of any interruptions.

Freedom Park Drive Intersection to Mustang Trail Way

- Sewer main installation through the Freedom Park intersection is now complete and crews are working westward towards Herriman High School.
- Throughout July, drivers should expect traffic to be reduced to one lane each direction and left turns are prohibited.

July 2024

- In observance of the 4th of July holiday weekend, crews will not be working Thursday, July 4th nor Friday, July 5th. Traffic control will remain in place during the holiday weekend.
- Underground boring is expected to begin at Midas Creek by mid-July.
